

## University Seed Grants

Sr. No.	Name of the Project	Faculty Name	Year of sanction	Amount
1	Formulation and evaluation of isoniazid nanoparticles for treatment of	Dr. Bala Prabhakar	2015	₹ 90,000.00
2	Assessment of naturally occurring Catechin flavonoids for the treatment of cardiovascular autonomic diabetic neuropathy in rats	Dr. Veeranjanyulu Addepalli	2015	₹ 60,000.00
3	Identification and isolation of bioactive compounds from potential Marine Actinomycetes	Dr. N. Saraswathy, Dr. Surendra Agrawal	2015	₹ 1,00,000.00
4	Targeting TGF $\beta$ Pathway with Combination of Drugs for Treatment of Diabetic Nephropathy : A Serious Complication of Diabetes	Dr. Yogesh Kulkarni	2015	₹ 52,000.00
5	Pharmacodynamic evaluation of in-situ intraarticular gel of solubilized curcumin for rheumatoid arthritis	Dr. Clara Fernandes	2015	₹ 90,000.00
6	Formulation development of Nanostructured lipid carriers of Cyclosporine for topical treatment of psoriasis	Dr. Sarika Wairkar	2016	₹ 80,000.00
7	Decellularized extracellular matrix (DECM) biomimetic nanocarriers for tissue regeneration	Dr. Pravin Shende	2016	₹ 1,00,000.00
8	Investigating the role of garcinol enriched fraction in the treatment of	Dr. Kalyani Barve	2016	₹ 1,00,000.00
9	Pharmacological Evaluation of Anticancer Activity of Sulfasalazine	Dr. Mukesh Nandave	2016	₹ 1,00,000.00
10	Development of Novel Fluorescent Substrates for Enzyme Sensitive Assays of Aminoacylases, Trypsin and Chymotrypsin	Dr. Prashant Kharkar	2016	₹ 1,00,000.00
11	Extraction of microcrystalline cellulose (MCC) from cotton, pigeon pea & soyabean plant stems and its comparative evaluation with marketed grades of MCC	Dr. Anil Pethe	2016	₹ 1,00,000.00
12	Mesoporous bioactive Glass Scaffolds: Evaluation in osteoporotic bone health	Dr. Deepali Kaduskar	2016	₹ 95,000.00
