Feedback Analysis Report (AY 2023-24)

I. Preamble

It is the practice followed in our Institution to obtain feedback from the students about Academic / Curriculum / Co-curricular / Administration activities / Infrastructure etc. for the holistic development of the institution. The various source of feedback collection in the Academic Year 2023-24 are:

> • Student Feedback (about the course & course teacher) during the semester.

> • Feedback on the Curriculum from Students, Alumni, Faculty, Academic Peers and Employers

> • Exit survey from graduating students

These feedbacks are collected and collated in the Department level/Institution level and important suggestions / comments / remarks given by the stakeholders on the curriculum & syllabi and other administration activities shall be considered for further course of action. The curriculum feedback taken from stakeholders (student, faculty, alumni, academic peers, employers) are collated and discussed at the Department Level.

The feedback inputs are given by the Department Head to the BoS members, who take the inputs into consideration for changes in curriculum. The BoS then deliberates the curriculum changes and forwards it to the Academic Council at University level for its approval. The Academic Council approves the changes which are then endorsed by the Board of Management/Executive Council and the changes are implemented in the curriculum from the forthcoming session.

B.Pharm, Alumni Feedback on Curriculum (2023-2024)

6. Action taken report

It was noted that as per the student feedback, the curriculum was lacking subjects imparting analytical skills. Thus, based on the feedback received, recommendations would be made to the board of studies for including subjects to address the gaps and if required would be implemented in the next academic year.
